

What to Do for Itching Skins

There is immediate relief for skins itching, burning and disfigured by eczema, ringworm, or similar tormenting skin-trouble, in a warm bath with resitol soap and a simple application of resitol ointment. The soothing, healing resitol medication sinks right into the skin, stops itching instantly, and soon clears away all trace of eruption, even in severe and stubborn cases where other treatments have had little or no effect.

You need never hesitate to use resitol. It is a doctor's prescription that has been used by other physicians for twenty years in the treatment of skin affections. It contains absolutely nothing that could injure the tenderest skin. Every druggist sells resitol ointment and resitol soap. Samples free, Dept. 7-R, Resitol, Baltimore, Md.

LEGAL NOTICES

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 29th day of September, A. D. 1915, the said Court, Present: NELSON J. AYLING, Judge of Probate, in said District, deceased. The Executor exhibited her administration account with said estate to the Court for allowance; it is therefore

Ordered, That the 15th day of October, A. D. 1915, at 10 o'clock in the forenoon, at the Probate Court Room in the City of Norwich, in said District, be, and the same is, appointed for hearing of said account, and the Executor is directed to give notice thereof by publishing this order once in some newspaper having a circulation in said District, at least ten days prior to the date of said hearing, and make return to the Court.

NELSON J. AYLING, Judge.

The above and foregoing is a true copy of record.

Attest: FANNIE C. CHURCH, Clerk.

ESTATE OF CLARK Z. BURDICK, late of North Stonington, in the Probate District of North Stonington, deceased.

The Administrator with the will annexed having exhibited his administration account with said estate to the Court of Probate for said District for allowance; it is therefore

Ordered, That the 9th day of October, A. D. 1915, at 10 o'clock in the forenoon, at the Probate Court Room in the City of Norwich, in said District, be, and the same is, appointed for hearing of said account, and the Administrator is directed to give notice thereof by publishing this order once in some newspaper having a circulation in said District, at least ten days prior to the date of said hearing, and make return to the Court.

NELSON J. AYLING, Judge.

The above and foregoing is a true copy of record.

Attest: FANNIE C. CHURCH, Clerk.

Touring Cars Collide.

Two touring cars, one a Cadillac and the other a Dodge, the former owned by Mr. Avery of Montville, owner of the latter unknown, collided near Old Lyme Tuesday afternoon about 5 o'clock, while attempting to pass a third machine and a trolley car. The two machines were running toward New London and were blocked by a third machine and the trolley. There was room at the side of the road for but one machine and when the two attempted to pass, running abreast, they side-swung into another, causing considerable damage. None of the occupants of the cars was injured. One of the cars was turned over and the other forced into the field at the side of the road. In a short time fully 30 machines had gathered at the scene of the accident, blocking all traffic and making it necessary for the trolley company to shift their passengers from one side of the block to the other.—New London Day.

Viewing With Alarm.

The new convert is so commonly an extremist that we would not be surprised to see Hon. Theodore E. Burton wrest the ring from Capt. Hobson.—Boston Transcript.

Han't a Look-In.

Mr. Bryan says he is without political aspirations, but this doubtless means that he realizes that he is without the pale of political possibilities.—Florida Times-Union.

A Dangerous Game.

Wanting to borrow a billion dollars it seems, is about as dangerous as having a billion.—Indianapolis News.

PE-RU-NA

MAKES REPORT ON COUNTY FAIR

Secretary Healey Says They Should Be Kept Out of the Ruts—Something Different Every Year—Pick the Right Man For Secretary—Connecticut Has 32 Agricultural Fairs.

In his report for 1915 to the state board of agriculture, which has been printed for distribution, Secretary Leonard H. Healey says there are 1,218 state, county and local agricultural fairs held in the United States. Of that number, 229 are located in New England and 32 in Connecticut. In an investigation, which has been made by the department of agriculture, replies were made by 485 of these associations or a little more than one-third of them. From these replies, we learn that the total attendance at a single year was more than seven million people. The financial statement for the year was as follows:

Gate receipts	\$1,381,594.09
Concessions	284,031.73
County appropriations	33,270.33
State appropriations	273,327.52
Other sources	503,476.31

Mr. Healey gives this advice to those who have charge of the management of fairs: "Get out of the ruts and keep out of the ruts. Have something different every year, remembering that some of the new things in fairs are fairs and fairs. Select a manager or secretary qualified by his or her peculiar fitness for the office. A man who has business qualifications and a wide acquaintance among those who should be counted as visitors and strangers welcome them in a genial way and make them feel at home. A man who can say 'no' when occasion may require it just as pleasantly as he can say 'yes' at least give him one with which to drive and the support of his board, and you will have a fair worthy the attendance of the public."

AGRICULTURE BOARD

ELECTS ITS OFFICERS

Annual Session Was Held Tuesday at the Capitol.

The state board of agriculture elected the following officers at its meeting Tuesday at the capitol at Hartford:

Vice president, J. Arthur Sherwood, Eastern; secretary, Leonard H. Healey, Western; treasurer, C. A. Thompson, Middlesex; executive committee, N. H. Brewer, Hockanum; Everett E. Brown, Pomfret; Fernando Wheeler, Stonington; member of board of control of Connecticut Agricultural Experiment Station, Wilson H. Lee, Orange; trustee, Connecticut Agricultural College, Clifford I. Stoddard, Woodbridge. The governor of the state is, ex-officio, president of the board.

Clifford I. Stoddard, of Woodbridge, who is a member of the board and also a trustee of the Connecticut Agricultural College; one of his colleagues, E. Kent Hubbard, Jr., of Middletown, and his colleague, Charles L. Beach, of the college were in consultation with Governor Marcus H. Holcomb and Attorney General George E. Hinman late in the afternoon as they were about to leave for the college. The governor visited a few days ago. The farm is under the supervision of the college, to a certain extent, and the conference was one of several which may be held with a view to making the farm more useful, to the agricultural interests of the state. The endowment fund of the farm, income said to amount to \$12,000, but it is conditioned, among other things, upon the expenditure of this income for the farm and not upon any other farm.

Georgetown is not centrally located, nor is it near enough to be in touch with the college at Storrs, and the experimental station near New Haven and the object of the trustees of the college is to see if some way can be found to realize more for the state out of the gift.

PYTHIAN INSTRUCTION.

School for the Fraternity to be Conducted in New Haven.

A school of instruction in Efficiency in Pythian business law and ritual will be held on Friday at Warner Hall, Chapel street, opposite Yale University, New Haven, and will be conducted by Colonel Will L. Scott, Past Supreme Representative, who for many years has been an authority on this subject and is at present in his second term of service to the Grand Domain of New York as official instructor. The meeting is to be compulsory, without fee or collection and everyone who has a part in the lodge work, business or ritualistic is invited to attend and Russell Porter, Grand Chancellor, says the lodge officers should make an effort to be present. The efficiency meeting is an exceptional opportunity, made possible by the kindness of Col. Scott and the courtesy of Hon. Clarence McGregor, Grand Chancellor of New York.

The instruction is to be given in two parts. Part one embraces the opening lodge ceremony; the duties of the officers; regular order of lodge business; form, blanks, minute records, applications for membership, balancing accounts and every detail of a Pythian Standard of recording Pythian business.

Part two embraces the ceremonies of the ranks of Page, Esquire and Knight, going into details without omitting anything that tends to show the meaning and intent of the ritualistic text, with special mention of innovations and the weakness thereby caused. The instruction includes from the time the applicant is prepared in the ante room until he stands a full pledged knight. It is preferable that part one of the instructions be given from 8 to 10 o'clock Friday afternoon or from 8 to 10 o'clock Saturday morning and part two from 8 to 10 o'clock Friday evening. If a greater number can attend the part one on Saturday morning, it can and will be so arranged, otherwise it will be given Friday afternoon.

Not Much of a Vacation.

Candidly, speaking, it hasn't been much of a summer vacation for Woodrow Wilson.—Washington Star.

Are You Ready For Your Trip? Take

HORLICK'S Malted Milk

with you when Yachting, Camping, Motoring, Fishing, or Golfing. A nutritious, satisfying Food-Drink ready in a moment. A good light lunch when tired down. Simply dissolve in water, hot or cold. A day's night's rest is assured if you take a cupful hot before retiring. Our Lunch Tablets are the same of convenient nourishment. Dissolve a few in the mouth when fatigued or hungry. Sample free, HORLICK'S, Racine, Wis. "No Substitute, Just as Good" as HORLICK'S, the Original.

at home. A man who can say "no" when occasion may require it just as pleasantly as he can say "yes" at least give him one with which to drive and the support of his board, and you will have a fair worthy the attendance of the public."

Attempts to Destroy Moth Pests.

Referring to the efforts of the board to destroy the caterpillar and moth pests, Secretary Healey says: "During the latter part of May, and early in June, large part of our time was spent in strenuously urging the destruction of the caterpillar and in sending out instructions as to their habits and extermination. It seems a shame that a pest which could so easily be eradicated by a little attention on the part of those who own fruit trees should be so common. Such ravages. Both the brown-tail and spray moth appeared in the north-east corner of the state, namely, Woodstock, Eastford, Thompson, Putnam and Pomfret. At our request Dr. W. E. Britton prepared an article advising in regard to their check and means necessary for their extermination. This article we had published in the local papers and generally distributed in those localities. After the slaughter of several of our trees because of the foot and mouth disease, we received several inquiries for assistance in the restocking of the farms. We were able to assist in selecting several carloads for those desirous of securing them."

TAKING A VACATION

FROM THEATRICAL WORK

Billy Barry Has Made Hit in Comedy Parts.

Billy Barry, a Norwich boy who has gone out into the theatrical world and made good, particularly in comedy parts, is spending a vacation of several weeks here and is warmly welcomed by his old acquaintances. Arriving here just in time for the public opening of the Elks' home on Tuesday, he was promptly enlisted on the reception committee as he is an old Elk and he rendered active service during the reception hours on Tuesday afternoon and evening.

For two years he has been with the Forsberg Players at the Lyceum at Indianapolis and at the Terra Haute opera house and he had 41 weeks at the majestic at Kansas City.

For the last five weeks he has been manager with Cora Payton at Patterson, N. J. and he will join Clara Turner as comedienne for a short season and then rejoin the Forsberg Players at Newark, N. J.

Two of the comedy parts in which he has made a special hit are as Jimmie Gillet in George Broadhurst's play Bought and Paid For, and as the German doctor, Dr. Bernstein, in The Lure.

FUR FABRIC COATS

Popular This Season—The Country Club Dress a New Model—Broadcloth, Gabardines and Whipcords Favored Suit Materials.

Although the weather continues mild, wise women are not deceived in believing that a sudden drop in temperature may not come at any time. The reason they are looking about in the stores and selecting seasonable garments, so that a sudden cold snap may not find them unprepared.

In particular has the demand for coats been brisk this Fall, some tempting beautiful designs being offered for the inspection of shoppers.

Fur fabric bikers, cloths, tweeds, all are favored coat materials, while corduroy continues well in the lead.

One smart corduroy coat shown yesterday was in rich African brown, its skirt cut full and its raglan sleeves having large, pointed cuffs. The belt was wide and the coat was lined with handsome black opossum. Large black bone buttons gave an effective finishing touch.

Stunning was a tourist coat in black, green and white check shibbole. It had fancy pockets and belt and the new choker collar.

Another elegant velveteen was developed in a swaggar coat, having full skirt, wide belt, finish of fancy buttons and rich satin lining in wood grained.

Something dresy in a street coat in the new Salts' Fur-text model in black, with rich collar, cuffs and trimming of kimmer fur.

A charming coat on the Cosack order is of fur-text, its edge cut in scalloped border with black, specialty Co. headquarters at Lowell, Mass. was in Mystic on Tuesday and completed the arrangements with Harold F. Sherman of Worcester, owner of the Royal Linen mills building, for the lease of the place for a term of years. The Climax Specialty Co. is engaged in manufacturing paper tubing and a variety of other stuff. The Royal Linen mills building is just what the firm wants. Mr. Elgelow arranged for the installation of a telephone, electricity and electric motors and the carpenters are at work getting ready for the installation of machinery, which will be moved from Montville soon.

FOUNDING INTERNATIONAL

HOSPITAL AT TOKIO

By Medical Missionary of American Episcopal Church.

Tokio, Sept. 29.—The establishment of an international hospital at Tokio is practically assured, beginning next year. Dr. Rudolf B. Teusler, formerly of Virginia, leaves for the United States soon to complete plans for the foundation of the institution which will be an enlargement of the present St. Luke's hospital, of which he is the director. Dr. Teusler is a medical missionary of the American Episcopal church by which St. Luke's was founded.

Today he was honored by Premier Count Okuma, assisted by several members of his cabinet, at a farewell luncheon at the Peer's club. The function developed into a striking demonstration of Japanese-American friendship through the presence, also, of the members of the Rockefeller Medical mission who are on their way to China.

Dr. William H. Welch, Dr. Simon Flexner, Dr. Wallace Buttrick and Dr. F. L. Gates. The American physicians had been previously introduced or had renewed old acquaintances with the leading Japanese medical men at a dinner given by Dr. Teusler.

Count Okuma voiced the hope that Dr. Teusler would obtain the active cooperation of the American public in his plan to establish a St. Luke's in his native land.

Returning to New York, Leila Troland Gardner, after giving a lecture in Spring Lake and Abnott Park and Abnott, has returned to New York to reopen her studio at the Metropolitan Opera house.

REACHES 80 YEARS.

Mrs. Sidney C. Smith Celebrating Her Birthday Anniversary at the Sheltering Arms.

Mrs. Sidney C. Smith is celebrating her 80th birthday today (Thursday) in her room at the Sheltering Arms, Norwich Town. This city has been her home since 1835, although she lived until after her marriage at East Lyme. Born in 1835 at the ancestral farm in Niantic across the road from the old town of East Lyme, she started life at a period before the advent of the daily newspaper, and when to her family was entrusted the keeping of the weekly keys of the church and burying ground to toll at death the age of departing souls in that parish.

The shortness of the journey to church on the first day of the week was balanced up by a mile and a half walk each way to school on the next five through the woods to Flanders at the North End of the town.

Being through the Bradleys, Christophers, and Deshons a descendant of the eighth generation from Elder William Brewster and her father a representative of the town may have been factors which led her to decide at the birth of a son, a son of Miss Gridley's preparatory school to enter the State Normal school at New Britain in 1858 contemporary with our late townsmen, Sherman S. Bishop.

Finishing her studies there she was installed as the first principal of the newly built "Grand Rock" school house just then being opened in her native town.

Although this was near enough to live at home the experience of being round was later at East Lyme and "Head-of-the-River" the school house just east of what is now Golden Spur.

A few years after her marriage she moved to Greenville but bought the house on division street in the Bowdoinville section in 1857.

The Buckingham chapel had been built the year previous with Mr. Bishop's very efficient superintendence and she took an active part in extending an invitation to attend its services to all new comers in that section until its disposal to the Greek church a few years since.

Over fifty years of household cares left Mrs. Smith with good sight, perfect hearing and as legible a hand as when she wrote copy for her first pupils.

Resultant from injury to her hip by a fall in 1913 she has been able to walk very little since that time and resides at the Sheltering Arms.

An unusual blessing is recalled in looking back over her fifty years, and that her children, four children and four grand children in that order, have been but one death of her immediate family, that of her husband in 1881.

CAME NEAR HITTING

WILLIAM W. BECKWITH

New London Auto Driver Summoned Into Norwich Police Court.

The proprietor of the New London auto station and James Rogers, who was acting as chauffeur for one of its cars which came to this city on Wednesday afternoon, have been summoned to appear before the city court in the morning to answer to a charge of violation of the automobile law in driving past a trolley car that was stopped to take on passengers in Thamesville.

William W. Beckwith, who was acting as chauffeur, his home at No. 119 West Thames street, was the complainant against the chauffeur, stating to the police that the auto nearly hit him as it first past at a fast gait. He got the number of the auto, made the complaint to police headquarters, and Traffic Policeman Michael O'Brien, who was with it, was going back through Thames square on its return trip to New London later in the afternoon.

KITEMAUG'S FINE CROP.

Boston Wholesalers Commend Frank W. Browning's Peaches.

"We are pleased to say that your fruit averaged better than any fruit that we handled from Connecticut this season and we are confident that we can get our best trade to use it another season should you be favored with a crop." is the comment of large wholesale dealers of Boston upon the six carloads of peaches shipped them by Frank W. Browning of Kitemaug. The shipment was made recently by Mr. Browning, that time Mr. Browning asked the wholesalers to let him know how his peaches averaged compared with other Connecticut fruit. The wholesalers were pleased with their reply, which shows that his peach orchard is a little above par, as York and Whitney, the wholesalers, draw from nearly all larger growers in the state.

LEASES MYSTIC MILL.

Climax Co. Will Move from Montville Location.

Horatio Elgelow, manager of the Montville branch of the Climax Specialty Co., headquarters at Lowell, Mass. was in Mystic on Tuesday and completed the arrangements with Harold F. Sherman of Worcester, owner of the Royal Linen mills building, for the lease of the place for a term of years. The Climax Specialty Co. is engaged in manufacturing paper tubing and a variety of other stuff. The Royal Linen mills building is just what the firm wants. Mr. Elgelow arranged for the installation of a telephone, electricity and electric motors and the carpenters are at work getting ready for the installation of machinery, which will be moved from Montville soon.

PARISIAN SAGE

No one likes dandruff, but to get rid of it you must do more than wash your hair. The cause of dandruff lies not in the hair, but on the scalp and in the hair roots, and just as twice daily you use a germicidal tooth powder or cream to cleanse your teeth of germs, so you should use Parisian Sage twice daily to drive dandruff from your scalp, prevent its return, protect your hair from falling out and nourish its proper growth. Dandruff makes your hair fall out. Parisian Sage makes Dandruff fall out and your hair stay in.

It's a delightfully perfumed hair and scalp treatment easily applied at home, very inexpensive and obtainable from Lee & Osgood or at any drug or toilet counter.

ANOTHER SMART

SUIT IN BROADCLOTH

FLARED AND FACED

This good looking model is featured in navy broadcloth. The skirt's fullness is obtained by three side plaits on the hips, and its bottom is finished with a strip of navy velvet, as is the coat. A novel demi-belt confines the coat's full front, and velvet buttons are used as trimming.

international hospital. He pointed out that the Japanese people had shown their sympathy in a practical manner and that the emperor himself had testified to his earnest interest. The premier felt certain that the hospital would strengthen the friendship between Japan and the United States. He wished to welcome, also, the Rockefeller Medical delegates with whose mission to China the Japanese nation was profoundly sympathetic. Japan, the premier pointed out, had received her medical science from the United States—indeed, its advent marked the inauguration of occidental civilization here—and now China was to benefit by the same generous international fellowship and helpfulness.

Dr. Teusler explained just what the hospital was to be. The purpose of his visit to the United States was to awaken further interest and complete the hospital fund, so work on the building might be begun next year. He paid a tribute to the brilliancy of Japanese physicians, but explained that a modern hospital was needed for foreigners in order that the services of these men might be secured. The new St. Luke's would be an important link in the chain of hospitals now being formed round the world. It should run from Carlo to San Francisco with unites at Peking, Shanghai and Tokio—all contributing to the betterment of the conditions of man kind to furthering the progress of the human race.

As for the hospital at Tokio, Dr. Teusler declared it would be the great meeting ground of the physicians of the East and West. It would have about 150 beds and as complete an equipment as is found anywhere in the world. Tokio as a site was, in his opinion, admirable on account of the large number of expert physicians, surgeons and laboratory men available and also because of the climate, and the hot-spring and mountain resorts within easy reach. In addition to

institution to a better international understanding and to the promotion of a true international spirit hardly be over-estimated."

Using a chemical process, a Moscow engineer claims to have produced a finer linen yarn than the finest spun, at low cost.

DIED.

BLACKBURN.—In this city, Sept. 28, 1915, Alice C. wife of John E. Blackburn, aged 32 years.

Notice of funeral hereafter.

A PRETTY EVENING

FROCK FOR THE COLLEGE GIRL

This frock is developed in black silk net over pussy willow satin. The net drape is finished with narrow binding, which also affords shoulder straps. The beque-like bodice gives a trim waist line, and black satin pumps finish this feminine's dance frock.
